

POWER LIFT®

POWERFUL IDEAS FOR POWERFUL RESULTS

MID THIGH PULL SQUAT RACK

Power Lift's Mid-Thigh Pull Squat Rack (MTP/SR-VALD) is compatible with the VALD Max force plates and allows users to perform isometric movements in conjunction with the force plates. The uprights feature multiple positions in 1" increments, allowing users of all sizes to position the bar in the correct position. The squat version allows users to perform squat movements at the station and other isometric movements.

KEY FEATURES:

- 1" knurled & plated ISO Bar
- The bar is secured into notches using a locking pin
- 7-gauge plated uprights feature laser cut numbers and notches and offer 1" increments for adjusting the ISO Bar
- Range: 8" - 80" from top of force plates
- Portable w/ 3.5" thermo cushion non-marking wheels and handle
- Removable uprights
- Mid-Thigh Pull base can fit inside the base of a Power Lift Rack if someone would like to use the rack for certain movements using the force plates
- D-Ring for Isometric Belt Squat (Belt not included)
- Compatible with VALD Max Force Plates
- Force plates not included
- Pass-through channels on the sides and middle of the MTP allow for connecting and charging the force plates
- Constructed from 10 and 7-gauge
